

मृद व जलसंधारण विभागाच्या अधिपत्याखालील
अधिकारी/कर्मचारी यांना पायाभूत/पदोन्नतीनंतरचे
सुधारित प्रशिक्षण धोरण निश्चित करणेबाबत.....

महाराष्ट्र शासन

मृद व जलसंधारण विभाग

शासन निर्णय क्रमांक : आस्थाप-२०२४/प्र.क्र.३७९/जल-२

मादाम कामा मार्ग, हुतात्मा राजगुरु चौक, मंत्रालय, मुंबई-४०० ०३२

दिनांक : ४ सप्टेंबर, २०२६

वाचा :- १) शासन निर्णय मृद व जलसंधारण विभाग क्र. आस्थाप-२०२४/प्र.क्र.३७९/जल-२,

दि.२७.०३.२०२५

२) शासन निर्णय मृद व जलसंधारण विभाग क्र. आस्थाप-२०२३/प्र.क्र.२६४ (भाग-१)/

ई-१२६५३४५/जल-२, दि.२७.०५.२०२६

३) शासन परिपत्रक मृद व जलसंधारण विभाग क्र. आस्थाप-२०२३/प्र.क्र.२६४(भाग-१)/

जल-२, दि.०८.०६.२०२६

शासन निर्णय :-

संदर्भाधीन क्र. १ येथील शासन निर्णय अधिक्रमित करण्यात येऊन, दि.२७.०५.२०२६ रोजीच्या सुधारित आकृतीबंधानुसार, सर्व तांत्रिक पदांच्या प्रशिक्षणाच्या अभ्यासक्रमामध्ये नव्याने मृदसंधारण विषयक व इतर आवश्यक विषयांचा समावेश करून तसेच प्रशिक्षण वर्गाच्या कालावधीत आवश्यकतेनुसार वाढ करून सर्व संवर्गाकरीता तांत्रिक स्वरूपाचे प्रशिक्षण देण्यासाठी स्वतंत्र सुधारित प्रशिक्षण मोड्युल सोबतच्या प्रपत्राप्रमाणे तयार करण्यात आले आहे. सदर प्रशिक्षणाचा कालावधी पुढीलप्रमाणे आहे.

अ. क्र.	पदनाम	सरळसेवा/ पदोन्नत	प्रशिक्षण कालावधी
१	अभियांत्रिकी सहायक, गट-क	सरळसेवा (नवनियुक्त)	४ आठवडे
२	वरिष्ठ अभियंता/सहाय्यक अभियंता श्रेणी-२/कनिष्ठ अभियंता-गट-ब (राजपत्रित/अराजपत्रित)	सरळसेवा (नवनियुक्त)	१ आठवडा (प्रारंभिक प्रशिक्षण)
			८ आठवडे (पायाभूत प्रशिक्षण)
		पदोन्नतीनंतरचे	२ आठवडे
३	उप अभियंता अभियंता गट-अ	सरळसेवा (नवनियुक्त)	८ आठवडे (पायाभूत प्रशिक्षण)
		पदोन्नतीनंतरचे	२ आठवडे
४	कार्यकारी अभियंता गट-अ	पदोन्नतीनंतरचे	२ आठवडे
५	अधिक्षक अभियंता गट-अ/मुख्य अभियंता, गट-अ	पदोन्नतीनंतरचे	२ आठवडे

सदर प्रशिक्षण मोड्युलनुसार तांत्रिक संवर्गातील सर्व सरळसेवा/पदोन्नत/दर्जोन्नत अधिकारी/ कर्मचारी यांना प्रशिक्षण देण्याची जबाबदारी महासंचालक, जल व भूमी व्यवस्थापन संस्था (वाल्मी), छ.संभाजीनगर यांची राहिल.

२. सदर शासन निर्णय महाराष्ट्र शासनाच्या www.maharashtra.gov.in या संकेतस्थळावर उपलब्ध करण्यात आला असून त्याचा संकेतांक २०२६०९०४१५५१०७७६२६ असा आहे. हा आदेश डिजीटल स्वाक्षरीने साक्षांकित करुन काढण्यात येत आहे.

महाराष्ट्राचे राज्यपाल यांच्या आदेशानुसार व नावाने,

(श.ह.खारोडे)

अवर सचिव, महाराष्ट्र शासन

प्रत-

१. मा.मंत्री, मृद व जलसंधारण यांचे खाजगी सचिव
२. मा.राज्यमंत्री, मृद व जलसंधारण यांचे खाजगी सचिव
३. सचिव (मृद व जलसंधारण) यांचे वरिष्ठ स्वीय सहायक, मंत्रालय, मुंबई
४. आयुक्त, मृद व जलसंधारण, वाल्मी, छ.संभाजीनगर
५. व्यवस्थापकीय संचालक, महाराष्ट्र जलसंधारण महामंडळ, छत्रपती संभाजीनगर
६. महासंचालक, वाल्मी, छत्रपती संभाजीनगर
७. सर्व मुख्य कार्यकारी अधिकारी, जिल्हा परिषद
८. मुख्य अभियंता, मृद व जलसंधारण प्रादेशिक क्षेत्र, नागपूर/पुणे/छ. संभाजीनगर
९. सर्व अधिक्षक अभियंता, मृद व जलसंधारण विभाग
१०. सर्व अधिक्षक अभियंता, मृद व जलसंधारण विभाग-दक्षता
११. सर्व कार्यकारी अभियंता, मृद व जलसंधारण विभाग
१२. सर्व कार्यकारी अभियंता, जिल्हा परिषद (ल.पा.)
१३. निवडनस्ती (जल-२)

मृद व जल संधारण विभागातील तांत्रिक संवर्गातील अधिकारी/ कर्मचारी यांचे वाल्मी येथील प्रशिक्षण

अ.क्र.	पदनाम	सरळसेवा/ पदोन्नत	प्रशिक्षण कालावधी
१	अभियांत्रिकी सहाय्यक, गट-क	सरळसेवा (नवनियुक्त)	४ आठवडे
२	वरिष्ठ अभियंता /सहाय्यक अभियंता श्रेणी-२/ कनिष्ठ अभियंता - गट-ब (राजपत्रित/अराजपत्रित)	सरळसेवा (नवनियुक्त)	१ आठवडा (प्रारंभिक प्रशिक्षण)
			८ आठवडे (पायाभूत प्रशिक्षण)
		पदोन्नती नंतरचे	२ आठवडे
३	उप अभियंता गट -अ	सरळसेवा (नवनियुक्त)	८ आठवडे (पायाभूत प्रशिक्षण)
		पदोन्नती नंतरचे	२ आठवडे
४	कार्यकारी अभियंता गट -अ	पदोन्नती नंतरचे	२ आठवडे
५	अधिक्षक अभियंता गट —अ/ मुख्य अभियंता, गट-अ	पदोन्नती नंतरचे	२ आठवडे

**Syllabus of Induction Course for newly recruited
Engineering Assistant (EA) of SWCD
(Duration: 4 Weeks)**

Sr. No.	Topic
1	Roles and Responsibilities of Engineering Assistant (CEA) in SWCD
2	Various Flagship Programmes/ Schemes of Central/ State Govt. for Watershed Development works (viz; PMKSY WDC 2.0, Jalyukt Shivar Abhiyan, Atal Bhujal Yojna, Galmukt Dharan Galyukt Shivar, Jalshakti Abhiyan)
3	Concept of Watershed /Springshed Development and Management
4	Village Level Water Budgeting
5	Principle of Soil Erosion & its Stages, Various methods of Estimation & Measurement of Soil Loss
6	Surveying and leveling: (Various instruments, Leveling, contour, area measurement and L-section, cross section practical)
7	Watershed Hydrology: rainfall - runoff concept, infiltration & Various formulae/methods of runoff estimation
8	Agronomical Measures for Soil & Water Conservation & Measurement of Soil Loss from Agricultural Land
9	Soil survey techniques and Land Capability Classification
10	Introduction to various SWC measures in upper, middle and lower reaches of watershed (site selection criteria, design aspects etc.)
11	Hydrogeological conditions of Maharashtra for Groundwater Recharge
12	Rain Water Harvesting Techniques for Urban Area (Roof Top)
13	Design of earthen embankment and various control levels
14	Cement Nalla Bandhara (CNB): Design and execution
15	Maintenance and Repairs of various SWC structures
16	Various Important Govt. Resolutions of SWCD
17	Census of Water Bodies
18	Preparation of estimate and costing
19	Micro Irrigation (Drip and Sprinkler Irrigation method)
20	Agro-climatic zones of Maharashtra & Agro-Meteorological parameters (crop water requirement)
21	Water Users Association - Concept, objectives, functions & benefits
22	IEC- Mass Communication, Effective Public Relations & Communication Skills
23	Applications of Remote Sensing, GIS in planning & monitoring of SWC structures & Practical on Geo-Tagging of structures
24	Effective Use of Artificial Intelligence (AI) in SWC Department
25	Types of conventional & non-conventional flow measuring devices
26	Maharashtra Civil Services Rules (MCSR)
27	Field Visit to Watershed Development Project
28	Field Visit to Agriculture University & Water Users Association

**Syllabus of Introductory Course for newly recruited
Senior Engineer/ AE-II / JE of SWCD
(Duration: 1 Week)**

Sr. No.	Topic
1	Introduction to Soil and Water Conservation Department, New Organizational Structure of Department (Aakrutibandh), Roles and Responsibilities of Senior Engineer/AE-II/JE
2	Various Schemes/Flagship Programs of SWC Department and its Salient Features
3	Salient Features of Jalyukt Shiwar Abhiyan (Phase 1 & 2), Administrative Approval, Technical Sanction and Revised Administrative Approval of the Projects
4	Official Works and Correspondence
5	Maharashtra Civil Services Rules (General Conditions of Services, Conduct & Discipline, Leaves etc.)
6	Account Procedures, Rules for New Purchasing, Store etc.
7	Right to Information Act
8	Salient Features of PMKSY WDC 2.0
9	Concept of Watershed Development and Watershed Hydrology
10	Watershed Level Water Budgeting
11	Introduction to Various Soil and Water Conservation Treatments/ Measures
12	Use of Micro-Irrigation to Increase Water Use Efficiency
13	Introduction to Minor Irrigation Manual and MPW Manual
14	Duties and Responsibilities of Various Officers for Evaluation of SWC Works, Measurement Book (M.B.) Recording, Passing of Bills etc.
15	Preparation of Estimates, Administrative Approval, Technical Sanction and Tender Procedure
16	Field Visit to various Soil and Water Conservation Structures/Treatments for demonstration in WALMI Campus
17	Working of Maharashtra Water Conservation Corporation
18	Role of Remote Sensing and GIS in Planning, Monitoring and Post Project Evaluation of Watershed Development Project (Mapping, Geo-Tagging etc.)
19	Quality Control and Maintenance of various SWC Structures
20	Introduction to Land Acquisition, Rehabilitation and Environmental Clearance Procedure
21	Information, Education, Public Relations and Communication Skills

**Syllabus of Induction Course for newly recruited
Senior Engr./AE-II/JE of SWCD
(Duration: 8 Weeks)**

Sr. No.	Topic
1	Water Resources Status of Maharashtra, Working and functioning of SWC Department, New Organizational Structure of Department (Aakrutibandh)
2	Roles and Responsibilities of Senior Engineer/AE-II/JE
3	Maharashtra Waters Conservation Corporation related works
4	Various Important Govt. Resolutions of SWCD
5	Various Flagship Programmes/ Schemes of Central/ State Govt. for Watershed Development works (viz; PMKSY WDC 2.0, Jalyukt Shiwar, Atal Bhujal Yojna)
6	Minor Irrigation Manual & MPW Manual
7	Concept of Watershed /Springshed Development and Management
8	Infiltration Concept and application
9	Village Level Water Budgeting
10	Soil Erosion from watershed area: principle, causes of & stages etc.
11	Estimation of Soil Loss using various methods (USLE, MUSLE, RUSLE)
12	Measurement of Soil Loss using various techniques (Sediment sampling methods, Sediment sampler)
13	Surveying and leveling: (Various instruments, Leveling, contour, area measurement and practical)
14	Hydrological aspects of watershed (Watershed hydrology: rainfall - runoff concept, Various formulae/methods for estimation of runoff)
15	Introduction to various Agronomical Measures for Soil & Water Conservation & Measurement of Soil Loss from Agricultural Land
16	Introduction to various Engineering Measures for Soil & Water Conservation in upper, middle and lower reaches of watershed (site selection criteria, design aspects etc.)
17	Rain Water Harvesting Techniques for Urban Area (Roof Top)
18	Design of earthen embankment and various control levels
19	Cement Nalla Bandhara (CNB): Design and execution
20	Elliptical Bandhara : Design and execution
21	Maintenance, Repairs and Handing over of various SWC structures
22	Hydrogeological conditions of Maharashtra for Groundwater Recharge
23	Well Hydraulics & Groundwater Exploration techniques
24	Preparation of estimate and costing & checking
25	M. B. Recording, Checking and Cross Verification, Delegation of power, Measurement Books security etc.
26	Overview of Innovations in Concrete (Reactive Power Concrete, Geo polymer

	Concrete, Fibre Rein forced Concrete, ferrocement concrete etc.
27	Concrete Mix Design/High Performance Concrete and Low-cost Concrete (Use of fly ash in Concrete)
28	Quality Control of Materials & structures
29	Tender, Schedule B, BOQ, preparation of Tender documents
30	Hydrological Modelling of Watershed
31	PDN: Concept and Design
32	Micro Irrigation (Drip and Sprinkler Irrigation method)
33	Water Use Efficiency
34	Water Budgeting- Agro-Meteorological parameters (crop water requirement)
35	Agro-climatic zones of Maharashtra
36	Soil survey techniques and Land Capability Classification
37	Estimation of ETo by various methods & Crop water requirement
38	Cropping pattern in command areas in relation to climate, soil and availability of irrigation water & Irrigation Requirement of various Crops
39	Soil - Water – Plant Relationship
40	Economics of SWC structures: terminologies IRR, ERR & BC Ratio
41	PIM - Govt. Policy, Concept, Philosophy, Need, present status & road ahead, MMISF-Act 2005 & Rules 2006; Salient features
42	Water Users Association - Concept, objectives, functions & benefits, formation, handing over & agreement
43	MMISF Act 2005 WUA elections and formation of subcommittees.
44	MIA 1976 - Introduction & Salient Features; Provisions Regarding PIM
45	MWRRRA 2005 - Introduction & Salient Features; Provisions Regarding PIM
46	IEC- Mass Communication, Effective Public Relations & Communication Skills
47	Personality Development, Positive Attitude and Stress Management
48	Remote Sensing, GIS, concept and application (Geo tagging, Practical on web-based RS and GIS etc.)
49	Effective Use of Artificial Intelligence (AI) in SWC Department
50	Design of irrigation channel and various structures, concept of walk-through survey
51	Types of conventional & non-conventional flow measuring devices & practical
52	Maharashtra Civil Services Rules (MCSR) for Leave, Salary, Conduct & Discipline
53	Right to Information Act
54	Land acquisition with court matters
55	Time Management & Leadership Development
56	Field Visit to Watershed Development Project
57	Field Visit to Minor Irrigation Project
58	Field Visit to Agriculture University
59	Field Visit to Water Users Association
60	Field Project Exercise for Actual Practical Experience

**Syllabus of Refresher Course for Newly Promoted
Junior Engineer (EA to JE)
(Duration: 2 Weeks)**

Sr. No.	Topic
1	Roles and Responsibilities of Junior Engineer in SWCD
2	Overview of Various Flagship Programmes of Government for Watershed Development works (viz; PMKSY WDC 2.0, Jalyukt Shiwar, Atal Bhujal Yojna, Galmukta Dharan Galyukt Shiwar, Jalshakti Abhiyan, NREGA etc.)
3	Concept of Watershed /Springshed Development and Management
4	Surveying and leveling: (Various instruments, Leveling, contour, area measurement and L-section, cross section practical)
5	Introduction to various SWC measures in upper, middle and lower reaches of watershed (site selection criteria, design aspects etc.)
6	Introduction to various Agronomical measures for Soil and Water Conservation
7	Soil survey techniques and Land Capability Classification
8	Rain Water Harvesting Techniques for Urban Area (Roof Top)
9	Cement Nalla Bandhara (CNB): Design and execution
10	Elliptical Bandhara: Design and execution
11	Maintenance and Repairs of various SWC structures
12	Preparation of estimate, mode of measurement and costing
13	M. B. Recording and allied things
14	Quality Control of Materials & structures
15	Census of Water Bodies
16	Minor Irrigation Manual & MPW Manual
17	Water Users Association - Concept, objectives, functions & benefits, formation, handing over & agreement
18	Personality Development, Positive Attitude, Time & Stress Management
19	Effective Use of Artificial Intelligence (AI) in SWC Department
20	Types of conventional & non-conventional flow measuring devices
21	Field Visit to Watershed Development Project

**Syllabus of Refresher Course for Newly Promoted
Junior Engineer to Senior Engineer/AE-II
(Duration: 2 Weeks)**

Sr. No.	Topic
1	Roles and Responsibilities of Senior Engineer/AE-II in SWCD
2	Overview of Various Flagship Programmes of Government for Watershed Development works (viz; PMKSY WDC 2.0, Jalyukt Shiwar, Atal Bhujal Yojna, Galmukta Dharan Galyukt Shiwar, Jalshakti Abhiyan, NREGA etc.)
3	Concept of Watershed /Springshed Development and Management
4	Principles of Soil Erosion & Stages, Estimation & Measurement of Soil Loss form watershed area
5	Introduction to various SWC measures in upper, middle and lower reaches of watershed (site selection criteria, design aspects etc.)
6	Soil survey techniques and Land Capability Classification
7	Maintenance, Repairs and Handing over of various SWC structures
8	Preparation of estimate, mode of measurement and costing
9	M. B. Recording and allied things
10	Tender, Schedule B, BOQ, preparation of Tender documents
11	Quality Control of Materials & structures
12	Census of Water Bodies
13	PDN: Concept and Design
14	Micro Irrigation (Drip and Sprinkler Irrigation method)
15	Minor Irrigation Manual & MPW Manual
16	Concrete Mix Design/High Performance Concrete and Low-cost Concrete (Use of fly ash in Concrete)
17	Water Users Association - Concept, objectives, functions & benefits, formation, handing over & agreement
18	Personality Development, Positive Attitude, Time & Stress Management
19	Effective Use of Artificial Intelligence (AI) in SWC Department
20	Types of conventional & non-conventional flow measuring devices
21	Preparation of monthly & yearly Account and submission of account to AG and Yearly Audit and audit para
22	Field Visit to Watershed Development Project

**Syllabus of Induction Course for newly recruited Dy. Engineer of SWCD
(Duration: 8 Weeks)**

Sr. No.	Topic
1	Water Resources Status of Maharashtra, Working and functioning of SWC Department, New Organizational Structure of Department (Aakrutibandh)
2	Duties and Responsibilities of Dy. Engineer, Exe. Engineer, Sup. Engineer, Chief Engineer etc. & Power delegated to officers for Execution of Various works
3	Various Flagship Programmes/ Schemes of Central/ State Govt. for Watershed Development works (viz; PMKSY WDC 2.0, Jalyukt Shiwar, Atal Bhujal Yojna)
4	Functioning of Maharashtra Water Conservation Corporation
5	Various Important Govt. Resolutions of SWCD
6	Concept of Watershed /Springshed Development and Management
7	Water Budgeting of Watershed
8	Principle of Soil Erosion & Estimation of Soil Loss using various methods
9	Survey works for project planning
10	Preliminary Investigation Survey and Project Report
11	Hydrological Aspects of Watershed: Watershed Hydrology, Rainfall Runoff Concept, Estimation of Runoff using various methods
12	Introduction to various SWC measures in upper, middle and lower reaches of watershed (site selection criteria, design aspects etc.)
13	Agronomical measures for SWC & Measurement of Soil Loss from Agricultural Land
14	Soil Survey Techniques and Land Capability Classification
15	Rain Water Harvesting Techniques for Urban Area (Roof Top)
16	Cement Nalla Bandhara (CNB): Design and execution
17	Elliptical Bandhara: Design and execution
18	Maintenance, Repairs and Handing over of various SWC structures
19	Preparation of estimate, mode of measurement and costing, checking
20	M. B. Recording, Checking and Cross Verification, Delegation of power, Measurement Books security etc.
21	Quality Control of Materials and structures
22	Tender Clauses and Tenders system
23	Power delegated to various level Officers as per MI Manual for Technical Sanction, Administrative Approval, Revised Administrative Approval and its process in SWCD (State/ MWC Corporation/ ZP) etc.
24	Hydrogeological conditions of Maharashtra for Groundwater Recharge
25	Well Hydraulics & Groundwater Exploration techniques
26	Hydrological Modelling of Watershed
27	Types of Minor Irrigation Works

28	Design & Execution of Minor Irrigation Project
29	Water Use Efficiency
30	Ex-Malguzari Tanks
31	Dam Safety Act 2021
32	Maharashtra Public Works Manual (Overview)
33	Design of distribution systems (canal & various structures)
34	Types of conventional & non-conventional flow measuring devices
35	Design of irrigation systems-Part-I (Piped Irrigation Network)
36	Design of irrigation systems-Part-II (Micro Irrigation)
37	Estimation of ETo by various methods & Crop Water Requirement
38	Cropping pattern in command areas in relation to climate, soil and availability of irrigation water & NIR of various crops
39	Economics of SWC structures: terminologies IRR, ERR & BC Ratio
40	Applications of Remote Sensing & GIS in SWC (Geo tagging, Mapping, Practical on web-based RS and GIS etc.)
41	Effective Use of Artificial Intelligence (AI) in SWC Department
42	Maharashtra Irrigation Act 1976, MWRRA, MMISF Act 2005 etc.
43	PIM: Concept and application
44	IEC and BCC - Concept, models & applications in management of WUA
45	Effective Public Relation, Communication skills & Personality Development
46	Institutional Arrangement in Implementation of Watershed development programme under various schemes (SHG, FPO/FPC etc.)
47	Maharashtra Civil Services Rules (MCSR) for Leave, Salary and Discipline
48	Right to Information Act
49	विधिमंडळ कामकाज , तारांकित व अतारांकित प्रश्न व त्या संबंधित करावयाची कार्यवाही
50	Purchase, maintain and disposal of store material
51	Power of officers to purchase, manufacture, dispose and write of stores, Survey report of various materials, Furniture, Vehicles etc.
52	भुसंपादन, पुनर्वसन व पुनर्स्थापना करताना वाजवी भरपाई मिळण्याचा व पारदर्शकतेचा हक्क अधिनियम, २०१३
53	वित्तीय अधिकार नियम पुस्तिका १९७८ व त्यामधील वेळोवेळी केलेल्या सुधारणा
54	जिल्हा नियोजन समिती / रो ह यो / गाळमुक्त धरण-गाळयुक्त शिवार
55	Preparation of monthly & yearly Account and submission of account to AG and Yearly Audit and audit para
56	Field Visit to Watershed Development Project
57	Field Visit to Minor Irrigation Project
58	Field Visit to Agriculture University
59	Field Visit to Water Users Association
60	Field Project Exercise for Actual Practical Experience

**Syllabus of Refresher Course for Newly Promoted Dy. Engineer
(Duration 2 weeks)**

Sr. No.	Topic
1	Water Resources Development in India & Maharashtra: In View of Climate Change
2	Duties and Responsibilities of Dy. Engineer
3	Concept of Watershed/Springshed Development & Management
4	Jalyukt Shiwar Abhiyan (Phase 1 & 2) Guidelines & Present Status of Works
5	PMKSY WDC 2.0 Guidelines, Institutional Mechanism & Present Status
6	Watershed Hydrology: Estimation of Runoff from Watershed Area
7	Various types of Soil & Water Conservation Treatments/Structures
8	Geohydrological Conditions in Maharashtra for Ground Water Recharge
9	Water Budgeting of Village (Watershed Level)
10	Piped Distribution Network (PDN) for Irrigation
11	Micro Irrigation System-I & II
12	Agroclimatic Zones of Maharashtra, Soil Survey and Land Capability Classification
13	Irrigation Scheduling Based on Water Availability (Critical Growth Stage & Soil-Crop-Climate Approach)
14	Procedure of E-Tendering, Clause 38, EIRL
15	Departmental Court Matters
16	Applications of RS & GIS in Planning, Monitoring and Evaluation of Watershed
17	Effective Use of Artificial Intelligence (AI) in SWCD
18	Flow Measurement in Irrigation Canals
19	Water User Association: Importance, Concept, Formation and Present Status
20	Water Laws: (MIA-1976, MMISF-2005, MWRRA-2005)
21	Economic Evaluation of SWC Structure & Case Study of Minor Irrigation Projects for Estimation of IRR, ERR & BC Ratio
22	Preparation of monthly & yearly Account and submission of account to AG and Yearly Audit and audit para
23	IEC, Effective Public Relation and Communication Skills
24	विधिमंडळ कामकाज , तारांकित व अतारांकित प्रश्न व त्या संबंधित करावयाची कार्यवाही
25	भुसंपादन, पुनर्वसन व पुनर्स्थापना करताना वाजवी भरपाई मिळण्याचा व पारदर्शकतेचा हक्क अधिनियम, २०१३
26	RTI - Right to Information Act
27	Field Visit to Model Watershed Development Project

**Syllabus of Refresher Course for newly Promoted Executive Engineer
(Duration: 2 Weeks)**

Sr. No.	Topics
1	Duties and Responsibilities of Executive Engineer & Power Delegated of Various Level Officers
2	Jalyukt Shiwar Abhiyan (Phase 1 & 2) Present Status
3	PMKSY WDC 2.0 Guidelines & Present Status
4	The Maharashtra Public Works Manual other related topic
5	Tender Clauses and Tenders System Review
6	System of Recording measurement, checking and cross of measurement, Delegation of power of record measurements, Measurement books security etc.
7	Census of Water Bodies
8	Concept of Watershed/Sprinshed Development
9	Advance Techniques for Soil Loss Measurement and Estimation
10	Various Soil and Water Conservation Structures/Treatments
11	भूमिसंपादन पुनर्वसन व पुनर्स्थापना करताना वाजवी भरपाई मिळण्याचा व पारदर्शकतेचा हक्क अधिनियम, २०१३
12	वित्तीय अधिकार नियम पुस्तिका १९७८ व त्यामधील वेळोवेळी केलेल्या सुधारणा
13	जिल्हा नियोजन समिती / रो ह यो / गाळमुक्त धरण-गाळयुक्त शिवार
14	Preparation of monthly & yearly Account and submission of account to AG and Yearly Audit and audit para
15	Physical aspect of Maharashtra state irrigation & Types of minor irrigation works
16	Preliminary Investigation Survey and Project Report
17	Design & Execution of Minor Irrigation Project
18	Design of distribution systems (canal & various structures)
19	Design of irrigation systems-Part-I (Piped Irrigation Network)
20	Design of irrigation systems-Part-II (Micro Irrigation)
21	Ex-Malguzari Tanks
22	Dam Safety Act 2021
23	Maharashtra Irrigation Act 1976, MWRRA, MMISF Act 2005 etc.
24	Field Visit to Model Watershed Development Project

**Syllabus for Newly Promoted Superintending Engineer & Chief Engineer
(Duration: 2 Weeks)**

Day	Topics/ Activity	Expert / Faculty
Day 1	Insights of WALMI	Director General
	Overview of SWCD	Commissioner
	Working of Maharashtra Water Conservation Corporation	Managing Director
Day 2 to Day 10	Interstate Exposure Visit to Best Practices in Various States	Coordinator from WALMI
Day 11	Presentation by participants on best practices studied during study tour	All Participants
Day 12	Discussion, Recommendation and Concluding	All concerned
